

VSI Impact Crusher parts

Common Alias: wearing parts Sand, Sand spare parts, vis impact parts , vis impact crusher parts

Material: high chrome cast iron, high chromium cast steel, high chrome alloy steel

Casting: foundry casting, V method of casting, lost foam casting

Applicable materials: quartz sand, grit, slag powder, copper ore, iron ore, gold ore, concrete aggregate, asphalt aggregate, etc.

Applications: gravel quarry, mining, stone material factory, gravel plant, sand plant, etc.

product description:

Impact Sand is also called impact crusher, it has widely usage. The goods is an efficient, energy-saving crushing equipment which is for the production of abrasives, refractories, cement, quartz sand, grit, slag powder, copper ore, iron ore, gold ore, concrete aggregate , asphalt aggregate and other hard, crushing the broken and brittle material,

The common of impact crusher parts are impeller, cylinder, the downstream channel plate (also called flow plate, spoiler), peripheral boards, dosing cone, butt ends, wearable pieces, etc. According to the same piece of equipment wearing parts wear, different installation positions, JYS respectivelytake high manganese steel, high chrome cast iron to produce difference parts to improve the service life of wearing parts.

Hubei JYS is specialized in vsi impact crusher parts: obscene Road liner, surrounded by guards, riving cone, wearable pieces and other wear-resistant parts made of high manganese steel or high chromium cast iron material. The parts are effectively protection of the body from the material to wear and easy to replace itself.

PERFORMANCE CHARACTERISTICS:

BETTER QUALITY

The production of impact crusher parts under 24h monitoring. To ensure the quality, each products before sent out must go though the QC department.

COST-EFFECTIVE

Aim to high impact characteristics of parts, and ensure impact toughness, using a specific formula and process to maximize wear resistance products

LONGER LIFE

high manganese steel ZGMn13 or high chromium alloy have sufficient impact toughness, long service time, good wear resistance

WIDE RANGE OF APPLICATION

The company developed high strength, high hardness, high toughness of high chromium iron wear resistance parts, that can produce a variety of peripheral boards, sand making machine parts and other wear-resistant parts. .

Technical Parameters:

Model	(mm)The maximum feed size	(r/min)rotating speed	(t/h)throughput	(kw)power	(L×W×H)(mm)size	(kg)weight
VI-3000	45 (70)	1760-2210	30-60	55-90	3080×1757×2126	≤5555
VI-4000	55 (70)	1550-1940	50-90	110-150	4100×1930×2166	≤7020
VI-5000	65 (80)	1330-1670	80-150	150-220	4300×2215×2427	≤11650
VI-6000	70 (100)	1190-1490	120-250	220-320	5300×2728×2773	≤15100
VI-7000	70 (100)	1050-1310	180-350	264-400	5300×2728×2863	≤17090
VI-8000	70 (100)	1330-1670	250-380	320-440	5500×2565×3178	≤18495
VI-8000 (II)	80 (150)	940-1170	320-600	440-630	6000×3022×3425	≤24610
VI-9000	100 (150)	880-1100	400-1000	630-740	6200×3300×3890	≤33100

Here is only some type for VSI Impact Crusher parts. As the improvement of product, the specifications are changed. If you need the further information, please contact our sales or Email us.

Enterprise strength:

We have two sand casting production line, one vacuum casting production line, one Lost foam casting production line; six intermediate frequency furnaces(two 5T,two 3T,two 1T) , six heat treatment furnace (one 40T,one 20T,one 15T ,three 5T), heat treatment pool 2000m3 water, with the annual capacity of 15,000 tons.

Sand casting

Lost foam casting

Vacuum casting

Pouring

Global cooperation:

JYS dialogue with international, built international group. We have an independent import and export business license, long-term exchanges and cooperate with overseas countries make our products maintaining a high level, also won the comprehensive international market. it is exported to Russia, Kazakhstan, Turkey, Saudi Arabia, South Africa, Vietnam, India, the United States, Australia and other 30 countries and regions.

Indonesia

Netherlands

Australia

United States

Special reminder:

Hubei JYS advanced wear resistant material technology Co. Ltd is a manufacture of wear-resistant, specialized in high manganese steel, high chromium, wear-resistant alloy steel casting, provide processing business of spare parts for different factory perennially. For any type of wear-resistant castings, you just provide drawing, sample or pattern, we can produce it for you. tel :+86-0717-3286139 e-mail: vip@jinyangshi.com
